

RESPONDING TO GOVERNMENT TENDERS A UNAMA'KI BUSINESS WORKSHOP

**Thursday, Feb.5, 2009
10:30am to 2:00pm with lunch provided
Membertou Trade & Convention Centre**

Tenders, especially in the construction industry, can be large, technical and intimidating. This workshop is meant to simplify the process and explain what is expected in such a tender.

This workshop is for Unama'ki business people who are interested in bidding on large tenders. The session should result in participants having a clear understanding of what is important in responding to Requests For Proposals (RFP) or tenders, where the risks and challenges lie, and what kind of bid preparation assistance they might need and where to find that assistance.

There is no cost, but please contact Eileen Paul to register in advance.
